

Spares Policy - 2026-2027 Season

Revised June 20, 2026

This policy aims to clarify fees related to spares. Curling des Collines members, having paid the \$175 fixed club membership fees (adult fees) and \$50 (youth fees), have the privilege to spare in 10 games at no additional cost. **After 10 replacements, fees will apply to members registered in less than three leagues.**

The fees are:

- Member: \$10 per game for two-hour leagues and \$5 per game for one-hour leagues.
- Non-member: \$20 per game for two-hour leagues and \$10 per game for one-hour leagues.

5th player: As stated in the registration policy, the 5th player is a member of a fixed team and has priority over players on bye.

League with more than 8 teams: Leagues with more than 8 teams will always have one or more teams on bye each week. Players on bye have priority to spare and must be contacted and offered the opportunity to spare.

Member not registered in a league: The fixed club membership fee includes 10 games of sparing in all leagues. Games not played are non-refundable. After 10 replacements, this member will pay \$10 per game for two-hour leagues and \$5 per game for one-hour leagues.

Member registered in one or two leagues: Curling des Collines members registered in one or two leagues have the privilege of sparing in 10 games in all leagues. Games not played are non-refundable. After 10 replacements, this member will pay \$10 per game for two-hour leagues and \$5 per game for one-hour leagues.

Member registered in three leagues or more: Curling des Collines members registered in three leagues or more have the privilege of sparing at no additional cost in all leagues.

Non-member spare: For players who are not Curling des Collines members, \$20 fees for two-hour leagues and \$10 fees for one-hour leagues are applicable.

We should remember that priorities related to spares are:

- Priority #1: The fifth player always has priority within his or her team.
- Priority #2: Players on bye have priority in leagues of more than 8 teams.
- Teams needing a spare following depletion of priorities #1 and #2 are free to choose a member or a non-member at their discretion.
